MESSAGE FROM THE PRESIDENT

It is my utmost pleasure to welcome all fellows, members and distinguished delegates to the Annual Scientific Congress of the College of Surgeons, Academy of Medicine of Malaysia, to be held in Pullman Hotel, Kuching, Sarawak on 19th to 21st May 2017.

I would like to firstly take this opportunity to congratulate the Organising Committee for their relentless effort in ensuring that this Congress is a success. Being part of the global surgical fraternity, we are very much aware of the importance of breaking new frontiers and hence shaping surgeons of the new era which is the theme for this year’s event.

With the growing interest and local participation in research, globalization has indeed marked a significant impact on our Society. This trans-national assembly therefore intends to not only discuss the wide-ranging research undertakings carried out by the clinical experts and academic institutions, but aims to share the vast pool of knowledge, resources and expertise of both the scientific and clinical community, which in turn generates substantial contribution for overall national progress. The sessions at this Congress, therefore, represent a unique platform in encouraging discourse among local and international scholars and professionals, besides sharing their invaluable insight on updates and the challenging day-to-day tasks.

We hope our comprehensive programme would inspire our delegates to think outside the box and re-examine the boundaries in refining the quality of care. I would like to thank the keynote speakers, presenters, authors for your proceedings and the delegates for your presence and contribution which an essential in ensuring a holistic and fulfilling experience.

Last but not least, I would also like to share our gratitude for the support we receive from our sister Colleges, industry partners and volunteers in making this Congress a success.

We wish you have a good conference experience and a pleasant stay in the Land of the Hornbills.

Hanafiah Harunarashid
MESSAGE FROM THE ORGANISING CHAIRMAN

I would like to invite you to attend the 2017 College of Surgeons, Academy of Medicine of Malaysia (CSAMM) Annual Scientific Congress and Annual General Meeting in Kuching, the capital and the largest city in Sarawak, Malaysia. It is known as “Cat City” and also the “City of Unity” where people of different racial origins and religious beliefs live and work in total harmony and unity. Kuching is now one of Asia’s most alluring cities with its unique brands of art, culture, fabulous food and hospitality.

This year the CSAMM congress and meeting will be held at the Pullman Hotel, Kuching, Sarawak from 19th to 21st May 2017. The theme is Dum Spiro Spero (While I breathe, I hope). It was the motto for the Kingdom of Sarawak under the White Rajahs. The motto reflects the challenges and endeavors faced by surgeons in their day-to-day work. A surgeon’s life is unique. He completes five to six years of medical school education, works for at least three years before spending another four years of training to acquire basic competency in surgical techniques and knowledge required of a surgeon. In between, he has to balance his work life with personal life, family and social responsibilities. He must be prepared to embrace changes and adapt to the technological advances to improve quality and safety of surgery. He must have humility to recognize his own shortcomings and has perseverance and discipline to succeed in a demanding work environment. Finally, he imparts his knowledge and his expertise to his trainees as long as he breathes, hopes and lives.

This year’s programme will continue a long-standing tradition of strong didactic sessions by world renowned experts combined with local faculties with the topics selected geared for the greater audience. The focus of topics chosen aims at thorough coverage of traditional topics combined with presentations of “cutting edge” material, designed to meet the need of practicing surgeons, surgeons-in-training, medical officers, nurses, other allied health professionals and medical students. The highlights of the Congress include the A M Ismail Oration, seven plenary sessions, twelve symposia, six meet the expert sessions, Ethicon Prize and How I Do It sessions. In addition, there will be concurrent sessions involving the breast chapter, national surgical nursing and medical student separately over three days.

On behalf of the Organising Committee, I would like to express our heartfelt thanks to the industrial partners, the Sarawak Convention Bureau, and the College secretariat for their unwavering efforts and support.

Siow Sze Li
Professor Dr David Galloway graduated in Medicine from the University of Glasgow in 1977. His early postgraduate training was focused in the West of Scotland and after becoming a lecturer in surgery in his alma mater, his specialty postgraduate training involved posts in London and in New York City where he completed a fellowship in surgical oncology at the Memorial Sloan Kettering Cancer Center.

On his return to Glasgow in 1988, he was appointed as a consultant surgeon with a particular interest in colorectal surgery. His clinical interests developed to build a tertiary referral practice in gastrointestinal surgery, advanced laparoscopic techniques and more recently bariatric and metabolic surgery.

He relished the opportunities for clinical research that came with a teaching hospital appointment, has just over a hundred publications and has supervised numerous projects for others working towards a higher degree. He was appointed Honorary Professor in the College of Medical, Veterinary and Life Sciences, University of Glasgow in 2015.

In the Royal College of Physicians and Surgeons of Glasgow, he has held various roles notably as Honorary Treasurer (1999 - 2006), Vice President (Surgical) (2007 - 2012), Chair of the Joint Committee on Intercollegiate Examinations (2004 - 2008), and Chair of the Fellowship Committee (2012 - 2015). He was elected President in December 2014 and after a year in the role of President-Elect, he was invested as President in December 2015.

One of the highlights of his professional life has been a long association with colleagues in Malaysia. He first attended the College of Surgeons Annual Scientific Meeting in Cameron Highlands in 2002 and has made visits to Malaysia virtually every year since then, examining in the Master of Surgery examination several times, giving lectures and taking part in many of our local meetings. He has also helped in the development of the Master of Surgery curriculum in the Department of Surgery, University of Malaya, where he was appointed Visiting Professor in 2013.

In his personal life, Professor Galloway is happily married to his wife, Christine, since 1979, and has two lovely daughters, one of whom is a doctor. He has two young grandchildren. Flying is one of his many hobbies and he holds a private pilot’s license. He is also an excellent golfer, and among his other hobbies are reading, cycling, tennis, computing, web design and digital video recording.

The College of Surgeons, Academy of Medicine of Malaysia recognizes Professor David Galloway as a doyen of surgery and a true friend of Malaysian surgeons.
M BALASEGARAM TRAINER AWARD

Introduction
Professor M Balasegaram was the chief of surgery at Hospital Kuala Lumpur in the 1960 to 1970s and had been instrumental in the education and training of the later generation surgeons throughout Malaysia. He was a surgeon par-excellence, winning many accolades from all over the world; especially for his work on liver resection. The later generation surgeons remembered his humility, dedication and passion for surgical training. With his passing in 2013, a memorial lecture to his honour was held in Hospital UKM in 2014. The CSAMM Council unanimously agreed to name a surgical education and training prize in his memory, to honour teachers and trainers in surgery in Malaysia. This award, in the form of a medallion and a certificate, may be presented each year at the Annual Scientific Meeting of the College.

Objective
The objective of this award is to honour any person/persons who has/have contributed to the training and education of doctors in the field of surgery in Malaysia.

Eligibility
1. Any person/persons, past or present, who has/have contributed to surgical education and training in Malaysia.
2. The person(s) could be involved in any surgical field, including from all surgical specialities or sub-specialities, or research-based but must have contributed significantly in the education and training of surgeons.
3. Not more than two may be selected per year.

Selection criteria
1. The CSAMM shall circulate call letters to surgical societies and request for nominations for the award, at least three months before the Annual Scientific Meeting. The nomination form shall comprise:
   a. Name of nominee, proposer and a seconder
   b. A brief CV of the nominee
   c. Reasons for the award
2. Selection Committee: This will comprise five members - three from the CSAMM Exco and two others nominated by the CSAMM Council. The non-Exco officials shall be senior members (past presidents or council members) of the College of Surgeons.
3. Attributes used in selection: The selection is based on the nominee’s contributions - past and/or present in training, leadership in the field, resourcefulness, and contribution to development of the field. The selection committee has the right to decide upon the weightage of the criteria. Their decision would be final.

Award
The awardee/representative would be called upon during the award ceremony and a short citation, as prepared by the selection committee, shall be read out.

A medallion that carries the title M Balasegaram Trainer Award and the CSAMM logo with the year of award and the name of the awardee would be presented. The cost of each medallion should not exceed RM 1,000 (RM One thousand only) and the value may be reviewed by the CSAMM Exco every five years. A certificate of excellence in training would also be issued.

Summary
Professor Balasegaram’s award is an award to honour educators and trainers in surgery. The CSAMM recognizes that there would be many specialities competing for the award. This guideline shall be reviewed every five years by the CSAMM Council and amendments made when necessary.
Dr Kandasami served as the Chairman of the Higher Surgical Training Committee of the College of Surgeons since its formation in 1997 to 2007. The Higher Surgical Training Committee was formed to oversee and coordinate the surgical programmes organized by the College. The Committee through an understanding between the College and the Ministry of Health Malaysia established the first ‘Surgical Skills Training Laboratory’ in the country at the Institute for Medical Research, Kuala Lumpur. The Committee developed various surgical skills programme including basic surgical skills, courses on bowel anastomosis, basic and advanced laparoscopic courses. Over the years, this Committee successfully trained trainee surgeons and practicing surgeons in various surgical skills.

Affirmative, confident and disciplined are some of Dr Kandasami’s qualities; these qualities have been passed on to surgeons who trained under him.

Dr Kandasami has been an Examiner for the local Masters of Surgery Programme for nearly two decades. He has supervised and trained candidates in Masters in General Surgery for the UKM, UM and USM. Dr Kandasami has trained several surgeons during his career, many of whom are enjoying a successful career. He is often referred to as Master Surgeon, but this master had a master, none other than the late Professor M Balasegaram.

Professor Dato’ Dr P Kandasami has contributed immensely in the field of surgery, not only in Malaysia, but in the Asian and Commonwealth countries. He is not only a highly skilled surgeon who served his time in public service until retirement; he is also an exemplary leader, an inspirational teacher and a dedicated trainer of future generations of surgeons.

BASIC SURGICAL SKILL COURSE

Date: 16th - 17th May 2017 (Tuesday - Wednesday)
Time: 0800 - 1630 hrs
Venue: Advanced Surgical Skills Centre, Universiti Kebangsaan Malaysia Medical Centre, Kuala Lumpur, Malaysia

16th May 2017 (Tuesday)

PROGRAMME

0800 - 0830 Registration, Introduction & Group formation
0830 - 0900 Opening Address by Head, Department of Surgery, Universiti Kebangsaan Malaysia Medical Centre
0830 - 0900 Pre-Assessment
0900 - 0915 Breakfast
0915 - 0940 Introduction to Suture Material & Instruments
0940 - 1000 Managing SSI
1000 - 1045 THE HANDLING OF BASIC SURGICAL INSTRUMENTS
   - The Scalpel
   - The Scissors
   - The Needle Holder
   - The Tissue Forceps
   - The Hemostats / Artery Clamps
1045 - 1145 BASIC KNOTTING TECHNIQUES
   - The Square Knot
   - The Slip Knot
   - The Surgeons Knot
   - Knotting in Deep Cavity
   - Instrument Tie
1145 - 1245 BASIC TECHNIQUES IN SKIN SUTURING (I)
   - Closing a Linear Incision with
   - The Simple / Interrupted Stitch
   - The Running / Continuous Stitch
   - The Subcuticular Stitch
1245 - 1400 Lunch
1400 - 1430 Suture Introduction by B. Braun
1430 - 1630 BASIC TECHNIQUES IN SKIN SUTURING (II)
   - Excision of Skin Lesion and Biopsy
   - Closure with
      - The Mattress Stitch - Vertical & Horizontal
1630 End of the Day 1
   Tea
17th May 2017 (Wednesday)

PROGRAMME FOR SUTURING AND ANASTOMOSIS TECHNIQUES OF THE GASTROINTESTINAL TRACT

0830 - 0900  Gowning and Gloving

0900 - 1000  **Entero-Enterostomy (Side to Side)**  
- Backwall Serosal Stitch  
- Full Thickness Stitch  
- Connell’s Stitch

1000 - 1100  **The Extramucosal Stitch**  
- On Freely Mobile Bowel Loops  
- On Immobile Bowel Loops

1100 - 1115  Tea

1115 - 1230  End to End Anastomosis of Bowels with Diameter Discrepancies

1230 - 1400  Lunch

1400 - 1500  **Abdominal Wall Closure Techniques**  
- Mass Closure  
- Short Stitch

1500 - 1630  **Post Assessment**  
 i) Abdominal Suturing Mass / Single *(Lab)*  
 ii) SSI (Slide Discussion / 3 Case Discussions) *(Seminar Room)*  
 iii) Theory Assessment *(Auditorium)*  
 iv) Practical Assessment - Abdominal Wall Closure *(Lab)*

1630  Feedback  
Closing  
Tea
PRE-CONGRESS WORKSHOP 2

ADVANCES IN PRESERVATION OF BREAST COSMESIS: BREAST IMAGING BASICS TOWARDS SCARLESS LUMPECTOMY FOR BENIGN CONDITIONS

(Organised by Breast Chapter College of Surgeons, Academy of Medicine of Malaysia Supported by College of Radiology)

Date: 17th May 2017 (Wednesday)
Time: 0730 - 1600 hrs
Venue: Dewan Auditorium, Level 13th & Level 2, Menara Selatan, University Malaya Medical Centre, Kuala Lumpur, Malaysia

Aim of Course: In benign conditions, scarless surgery provides a less invasive approach to diagnosis and treatment. A systematic approach from principles, patient selection, treatment planning and techniques will be presented. Basic of breast imaging will be covered.

PROGRAMME

0730 - 0830 Registration & Breakfast

0830 - 0900 Scarless Surgery in Benign Breast Conditions - Patient Selection
Tan Yah Yuen

0900 - 0920 Fundamentals of Breast Ultrasound
Anusya Vijayananthan

0920 - 0940 Ultrasound Guided Biopsies - Back to Basics
Anusya Vijayananthan

0940 - 0950 Case Work Up
Kiran Kaur Amer Singh

0950 - 1020 Live Surgery
(Free Flow Refreshments)
Tan Yah Yuen

1020 - 1040 Benign and Malignant Disease on Ultrasound
Farhana Fadzli

1040 - 1110 Live Surgery
Tan Yah Yuen

1110 - 1130 Mammogram - The Basics and Image Interpretation
Kartini Rahmat

1130 - 1150 Basics of Stereotactic Biopsy and VABB
Kartini Rahmat

1150 - 1210 Follow-Up and Management After Vacuum Assisted Excision
Tan Yah Yuen

1210 - 1240 Dry Lab Demonstration
Anusya Vijayananthan

1240 - 1400 Dry Lab Participants

1400 - 1500 MDT Discussions
See Mee Hoong
- Nipple Discharge
Suniza Jamaris
- Screen Detected Non-Palpable Breast Lesion
Shaleen Kaur Kirat Singh
- Palpable Breast Lesion
Kiran Kaur

Panelists: Teoh Kein Hooi, Tan Yah Yuen, Kartini Rahmat, Nur Aishah Taib, Lee Soo Chin

1500 - 1600 Panel Discussion
Setting Up Scarless Lumpectomy
Nur Aishah Taib

Panelists: Tan Yah Yuen, Anusya Vijayananthan, See Mee Hoong, Kartini Rahmat
PRE-CONGRESS WORKSHOP 3

SCIENCE OF TISSUE MANAGEMENT

Date : 17th May 2017 (Wednesday)
Time : 0830 - 1715 hrs
SoTM : “HOW DO WE CONNECT THE NEEDS OF TISSUE, TO THE SKILLS OF THE SURGEON, TO THE BENEFITS OF THE PATIENT”

This workshop is targeted to surgical trainees and medical students and provides a platform with hands-on opportunity where sound understanding and in-depth knowledge on device-tissue interaction and Science of Tissue Management (SoTM) can be obtained. It would involve sharing the latest information and innovations in Stapling, Energy Devices, Abdominal Wound Closure and Intra-Operative Bleeding Management and will be divided into a morning lecture session and an afternoon hands-on lab session.

LECTURE
Venue : Clinical Auditorium, Faculty of Medicine, University Malaya Medical Centre, Kuala Lumpur, Malaysia

0830 - 0900 Registration & Breakfast
0900 - 0920 Welcome Address
   Introduction to Science of Tissue Management (SoTM); Overview and History
   April Camilla Roslani
0920 - 1005 SoTM ENERGY
   April Camilla Roslani
1005 - 1015 Energy Demonstration: Electrosurgery
1015 - 1100 SoTM Stapling
   Zaidi bin Zakaria
1100 - 1115 Q & A
1115 - 1200 SoTM Bleeding Management
   Aizura Syafinaz binti Ahmad Adian
1200 - 1245 SoTM Abdominal Wall Closure
   Luqman bin Mazlan
1245 - 1300 Q & A
1330 Lunch
End of Lecture Session

HANDS-ON & LAB DEMONSTRATION
Venue : Clinical Skills Unit, Faculty of Medicine, University Malaya Medical Centre, Kuala Lumpur, Malaysia

1400 - 1600 Lab Stations:
   1. ENERGY: Harmonic (Ultrasound) and EnSeal (Advanced Bipolar)
      April Camilla Roslani
   2. Stapling: Linear Cutter and Echelon
      Zaidi bin Zakaria
   3. Dry Lab: Hemostat Handling; Fibrillar and SNoW
      Aizura Syafinaz binti Ahmad Adian
   4. Abdominal Wall Closure; Looped PDS, Self Locking Knot and Stratafix
      Luqman bin Mazlan
1600 - 1615 Tea
1615 - 1715 Hands-On & Lab Demonstration Continues
1715 Closing & Group Photo
End of Lab Demo Session
VASCULAR UPDATE

Date: 17th May 2017 (Wednesday)
Time: 0800 - 1400 hrs
Venue: Advanced Surgical Skills Centre, Universiti Kebangsaan Malaysia Medical Centre, Kuala Lumpur, Malaysia

Organising Chairman: Hanafiah Harunarashid
Co-Chairman: Mohamad Azim Md Idris / Lenny Suryani Safri
Secretary: Shazana Shahari / Mohd Amirullah Shah

This pre-congress workshop aims to provide surgical trainees with an understanding of the principles and the recent advances of vascular diseases, investigation and management approaches and latest surgical techniques including the subjects of post operative management and complications.

PROGRAMME

0800-0830  Registration & Welcome Address

0830-0900  Management of Chronic Venous Insufficiency
            Hanafiah Harunarashid

0900-0930  Controversies in Vascular Access Surgery
            Chew Loon Guan

            Mohamad Azim Md Idris

1000-1030  Common Mistakes in Vascular Assessment
            Hanif Hussein

1030-1100  Tea Symposium

1100-1130  How do I Start My Revision for Vascular Exams?
            Ahmad Rafizi Hariz Ramli

1130-1200  Recent Advances in Vascular Research
            Reza Mofidi

1200-1230  Tricks & Tips - Femoral Embolectomy
            Naresh Govindarajanathan

1230-1300  Avoiding Complications in Managing Limb Ischaemia
            Zainal Ariffin Azizi

1300-1330  What is Latest on EVAR Technology?
            Andrew Choong

1330-1400  Lunch Symposium & Closing Ceremony
INTRODUCTION
In this day and age, advances in technology has revolutionised healthcare and changed the way we perform surgery. Laparoscopic surgery has become the gold standard for many operative procedures for the last 2 decades. Laparoscopic suturing is technically challenging but an important skill to acquire for surgical trainees as well as established surgeons. It is an important adjunct to laparoscopic surgery as it helps the performing surgeon to navigate through many tight situations.

This one day intensive workshop is directed to help participants to progress from basic handling skills to advanced laparoscopic suturing. It is delivered by established laparoscopic surgeon in their own field with lectures and hands on laparoscopic suturing (both dry and wet models) using endo-trainer.

OBJECTIVES
1. Technique of laparoscopic intra-corporeal and extra-corporeal knotting.
2. Technique of laparoscopic tissue handling and suturing (interrupted, continuos).
3. To know the requirement of laparoscopic suturing.

PROGRAMME
0800 - 0830 Registration
0830 - 0845 Welcome Address & Programme Overview
0845 - 0900 Session 1: Requirement of Laparoscopic Suturing
  - Port Placement/Ergonomics
  - Needle Holder Types
  - Knot Pusher
  - Ideal Suture Length
  
  Rajkumar Vinayak

0900 - 0940 Video/Live Demo:
  - Needle Introduction, Handling, Loading
  - Loading Through Tissue, Extraction

0940 - 1000 Tea
1000 - 1020 Session 2: Intra-Corporeal and Extra-Corporeal Knotting
  
  Lau Peng Choong

1020 - 1050 Live Demo/Video: Method of Knotting
1050 - 1230 Practical/Hands-On
1230 - 1330 Lunch
1330 - 1350 Session 3: Laparoscopic Suturing in GI Surgeries
  
  Tikfu Gee

1350 - 1420 Live demo/ Video: Laparoscopic Suturing (Interrupted, Continuous)
1420 - 1530 Practical/Hands-On
1530 - 1620 Assessment: Laparoscopic Suturing and Knotting
1620 - 1630 Q & A
  Feedback and Workshop Closure
**PRE-CONGRESS WORKSHOP 6**

**ADVANCED LAPAROSCOPIC LIVE SURGERY**

**Date**: 18th May 2017 (Thursday)

**Time**: 0800 - 1700 hrs

**Venue**: Main Operating Theatre & Auditorium, Sarawak General Hospital, Kuching, Sarawak, Malaysia

**Aim of Course**: With the advancement in medical technologies, we are now progressing from conventional open (laparotomy) to minimally invasive surgeries (MIS) with various techniques and modifications; differ between surgeons, hospitals and countries. This workshop will explore various techniques of MIS in Upper Gastrointestinal, Bariatric, Hepatobiliary, Colorectal and Hernia surgery from experts in their field worldwide. It is hope that with this exposure, surgeons will be able to learn and perform the procedures safely. Through this workshop, it is also hoped that it will raise interest and awareness of MIS among medical officers and master students.

POST-Congress Workshop 1

Care of the Critically Ill Surgical Patient (CCrISP®) Course

Date: 27th - 28th May 2017 (Saturday - Sunday)
Time: 0730 - 1900 hrs
Venue: Clinical Skill Laboratory, University of Malaya, Kuala Lumpur, Malaysia
Director: April Camilla Roslani
Co-Director: Ng Char Hong

This two-day course is designed to advance the practical, theoretical and personal skills necessary for the care of critically ill surgical patients. The course is suitable for candidates who are now undergoing their surgical training (Master of Surgery) or just obtained their Master of Surgery. If you are in the earlier part of surgical training you must submit a CV with your application.

Content
This course is designed to advance the practical, theoretical and personal skills necessary for the care of critically ill surgical patients. It is aimed at surgeons and those dealing with surgical patients who are in specialist training.

Level
Master of Surgery Students and Specialists

It is the responsibility of the course delegates to ensure that they fall within the relevant criteria for the course as detailed above. If we discover that your experience is below the required level before or at any time during the course, the College reserves the right to refuse you from continuing to attend the course without compensation.

What Does the Course Entail?
- Theoretical knowledge (respiratory failure, cardiac disorders, renal dysfunction, pain, the multiply injured patient, communication skills, conducting a surgical ward round)
- Practical skills stations (airway management, tracheostomy, wound assessment, stoma care, advanced shock, communication skills, peri-operative cardiac disorders, chest radiograph interpretation, nutrition)
- Simulated patient assessment
- Clinical decision making
- Legal, ethical, and communication issues
- Data analysis

How Much Effort Is Required?
- Familiarity with pre-course manual
- Passing a pre-course assessment (multiple choice questions)
- Full attendance during course
- Demonstration of knowledge and enthusiasm
- Completion of a final assessment based on a clinical scenario
27th May 2017 (Saturday)

PROGRAMME

0730 - 0800  Registration

0800 - 0810  Welcome - Introduction

0810 - 0840  Assessing the Critically Ill Surgical Patient

0840 - 0900  Demonstration Patient Assessment

0900 - 1000  **PRACTICAL SKILLS ASSESSMENT OF THE CRITICALLY ILL SURGICAL PATIENT**
- Patient A
- Patient B
- Patient C
- Patient D

1000 - 1010  Refreshments

1010 - 1040  Peri-Operative Respiratory Complications

1040 - 1110  Shock and Haemorrhage

1110 - 1230  **PRACTICAL SKILLS STATIONS**
1. Airway Management
2. Tracheostomy Management
3. Wound Care Assessment & Management
4. Stoma Assessment and Management

1230 - 1300  Cardiac Disorders in Surgical Critical Care

1300 - 1330  Lunch

1330 - 1400  Sepsis

1400 - 1430  Renal Dysfunction in Surgical Critical Care

1430 - 1500  Communication - A Vital Skill in Critical Care

1500 - 1515  Refreshments

1515 - 1815  **PRACTICAL SKILLS STATIONS**
1. Peri-Operative Cardiac Disorders
2. Cardio-Vascular Manipulation in Shock
3. Communication and Organisational Skills One
4. Renal Scenarios

1820 - 1900  Faculty Meeting
POST-Congress Workshop 1

28th May 2017 (Sunday)

Programme

0800 - 0830 Nutrition

0830 - 0900 Workshop
  - Nutrition Scenarios: Groups A & B
  - Nutrition Scenarios: Groups C & D

0900 - 1215 Practical Skills Stations
  1. Sepsis Scenarios
  2. Communication and Organisational Skills Two
  3. Invasive Cardiovascular Monitoring
  4. Chest Radiology and Respiratory Care

1215 - 1245 Pain Management

1245 - 1315 Lunch

1315 - 1400 Demonstration Patient Assessment

1400 - 1420 Course Summary

1420 - 1720 Practical Management of the Critically Ill Surgical Patient
  1. Clinical Assessment
  2. Data Interpretation
  3. Plan of Action
  4. Communication Skills
     • Patient A - Scenario
     • Patient B - Scenario
     • Patient C - Scenario
     • Patient D - Scenario

1420 - 1720 The Surgical Ward Round

1720 - 1750 Faculty Meeting

1750 - 1830 Closing Remarks and Candidate Feedback

Please contact the Secretariat for register:
