

PRE-CONGRESS WORKSHOP 1

SCIENCE OF TISSUE MANAGEMENT

This workshop is intended for surgical trainees and medical students and provides a platform with hands-on opportunity where sound understanding and in-depth knowledge on device-tissue interaction and Science of Tissue Management (SoTM) can be obtained. It would involve sharing the latest information and innovations in Stapling, Energy Devices, Abdominal Wound Closure and Intra-Operative Bleeding Management and will be divided into 4 session: SoTM Digital Module, virtual lecture Session & hands-on session. Latest addition to this programme, we are introducing Digital Facilitation Skills Training to the participants where they can provide answers to key questions relating to leading and participating virtual learning events, from technical requirements to design strategies and delivery best practices.
